NEW AWARD ANNOUNCED FOR Q-C STEM STUDENTS APPLICATION DEADLINE FOR THOMAS K. EVANS MEMORIAL SCHOLARSHIP IS MAY 1

There's a new scholarship in town for Q-C students planning to enter college for the first time in fall 2018 to study science, technology, engineering and math.

The Thomas K. Evans Memorial Scholarship has been created to honor its namesake, the late entrepreneur and engineer who founded American Power Systems, Inc. (APS), the Davenport-based business supporting the award.

"Tom loved learning, and he used his education to bring ideas to life at APS. Today, the functional results of his ideas—in the form of advanced mobile power systems—are saving lives around the world.

"When Tom passed away in 2014, he left the world a better place than he found it—and his education in the sciences allowed him to make the indelible mark he did. As part of his legacy, we at APS believe in fostering STEM education to engender innovation," says Amy Lank, president of APS.

The Thomas K. Evans Memorial Scholarship will provide one student an award in the amount of \$5,000. Application is open to students graduating from Quad-Cities high schools and planning to enter college in fall 2018. The deadline to apply is noon Tuesday, May 1.

Complete information, including qualifications and directions for applying, may be found online at www.americanpowerinc.com/scholarship.
