Customized Solutions
Dual Alternator Systems & Design

DUAL ALTERNATOR SYSTEMS

Ample power. Mission ready.

BENEFITS AT A GLANCE

- Double a vehicle's 12V output
- Keep OEM and ancillary equipment separate—or connect systems
- Add 12V and 24V power to the same vehicle
- Get a complete, packaged system with detailed instructions

POWER UP WITH APS

Client-centered

We begin every custom project with a discussion about your needs and necessary outcomes. Our program managers are tech-capable advisors who assist clients at every juncture, providing support and guidance to ensure success.

Experienced & capable

Our engineering, design and build team brings over 100 years of experience to each conversation. Need a custom product to install yourself? Count on APS. Need assistance from start to finish, including system installation and on-vehicle testing? We do that too—and everything in between.

Let's start something great
